

21 Days of Prayer

What did our 21 days of prayer mean to you? What things were you praying about? What insights or answers did you receive?

Vision Truths

This month, we have learned four vision truths:

- Ⓢ God wants people to love him as the greatest good.
- Ⓢ The difference between who a person is and who they should be is Jesus.
- Ⓢ God wants all people to know his presence in a community of believers.
- Ⓢ God blesses his people so they will bless others.

What difference does it make when people believe these things?

Are those beliefs strong in you?

Seeing Opportunities

Give each person a moment to answer the following two questions together:
What are some things in our world today that specifically bother you?
What are some good things that could be done to address those issues?

Do it again with these two questions:
What are some things in our church today that specifically bother you?
What are some good things that could be done to address those issues?

Stepping Into the Vision

Given the truths about God mentioned above, and your awareness of some good that should be done, what role do you think you should play? Is there a vision for 2018 that God is forming in your heart?

At our Vision Dinner, Pastor Billy and I shared some challenges that we are currently facing as a church: tight finances, high guest inflow, low effectiveness with the unchurched, and low overall attendance growth. I shared that the one thing we can do to address all of these issues is to emphasize personal discipleship and I set a goal for us to be a church with 100% member involvement in personal spiritual coaching. How do you feel about that goal?
